Beat the Heat 2019 was Great

While this past July is just a memory, and we are more than likely trying to think of how to stay warm, rather than "Beat the Heat", we can look back on this year's show as a real success. For a while it looked like we might even get burned out, but then the clouds came in and instead of washing the show out, as it

has tried to do in years past, it just settled over the fire and put out most of it. Then for the rest of the weekend the cool breezes just blew what smoke was left away from us. For many of our visitors, we were an escape from the fire.

The show had a little bit of everything from everyone. There were shirts of all different colors for sale.

And the warm smiles and happy greetings of Tina, Bonnie and Billie insured lots of sales of them. Also thanks to Billie Tappan, they were made all the more fashionable with tractor ear rings. These were a big hit, with her even filling orders as they came in and selling out. This was a very generous gift of time and support to the club and much appreciated by everyone. We are all looking forward to what she comes up with for next year.

Another new part of the show for this year was a Silent Auction. This went over well with some very interesting items. It was a fine example of one man's junk being another man's treasure.

Although there were some very fine items to be found among it all.

Andy and Janet manned the membership table, handling renewals, and taking in several new members, as well as registering tractors for the pulls.

Our Newsletter is published by NAAT&EA. P.O. Box 3971, Flagstaff, AZ 86003. Judy Kitson, Editor.

Publication Dates: 2 to 3 times a year as needed

Material for Publication: Stories, articles, items for sale, and photos are most welcome.

Send all items to:

Judy Kitson, Editor at PO Box 2440, Page, AZ 86040, or email judy-kitson@canyoncountry.net.

Preregister for the Pulls

If you plan to pull in any of this year's events, PLEASE preregister with the organization giving the event. It helps them know how many to set up for and also give you more information you may need about their event.

Safety First

When you don't abide by the rules, you risk injury to yourself & others. Rules such as: no passengers unless on safety officer approved seats, & seat belts for children, & turning off engines when tractor or engine is unattended. Accidents can happen, but they are also the reason our insurance rates go up. It's in everyone's best interest to stay safe.

If you have a safety concern at an event, be sure to report it to our Safety Officer, Thomas Fancy.

I will be sending out about 2 or 3 Newsletters a year. One in the spring to get us ready for the show and a second in the fall to catch us up on our show and prepare us for winter. And a third if necessary. But the Website can be continually updated. So if you hear about any shows or receive a newsletter from another club that you think our club members might be interested in send the information to me and I'll put it up on the website.

If you are looking for an item or have an item to sell let me know and send photos if possible as we have a section just for that. In fact Gene Tucker and I are beginning to put up some items under what's called Judy's yard. Gene plans on going to some military shows in Phoenix in Dec. and January and could possibly even transport some items you might want to buy from us. So start checking Judy's Yard out on the club website. We have a lot more items to put up and will be changing the page as we sell items.

Our club newsletter will be posted there as well as any photos you might want to submit from ours or other's events. We have a lot of space to use so let's use it. If you have any ideas of other things you would like on the site let me know. Also I welcome any articles for the newsletter or website.

The website address is a bit long, but if you will send me an email, I'll send you a link to it.

Do we have your email address?

Sometimes we want to get the word out about something quickly and email is our best way. If you have email but have never gotten an email from us send an email to us and we will get you on the list. Send to either Jim Brain or Judy Kitson (see our email address above)

Beat the Heat continued.

We had lots of people visiting our show and there was plenty to see.. We had lots of just about every type of tractor.

There were tractors of every color and size , and some that were unusual, in an Interesting sort of way.

There were tractors parading and

tractors pulling the sled.

Tractors pulling the wagon, tractors pulling the barrel train and tractors working the track. We even had tractor's plowing the field.

And we had lots of engines doing things.

To see more photos from the show, check out the photo section on our website, <https://northernarizonaantiquetractorandengineassociation.com>
